Our Process

EvaluMetrics™, our assessment engine, was conceived by Intelisearch's founder, a SONY-trained leadership assessment expert. The foundation of EvaluMetrics™ is a 360° capture of our client's circumstances, needs, and expectations. We convert this to a clear employer value proposition, a defined sourcing strategy, and a customized, multi-phase candidate assessment platform with 3 core elements.

→ Recommendations are weakness-balanced, substance-based, and specific to your needs and requirements.
